

## REVIEW OF TRADE BY DUN & COMPANY

### SHORT COTTON CROP AFFECTS PRICES.

**Yield Placed at 7,000,000 Bales—Wheat Market Excited Without Reason—Advance in Wool at London—Halt in the Advance of Leather—Failures of the Week Show a Decrease.**

New York, Sept. 28.—R. G. Dun & Co.'s weekly review of trade says:

"The speculation in cotton has lifted the price five-eighths during the past week, and quotations here are so much higher than at Liverpool that free exports cannot be expected. It seems no longer possible to hope for a good crop, and Neill Brothers have issued a circular predicting a yield of only 7,000,000 bales. The accounts of injury and loss grow more dismal each week, and, while they may be somewhat exaggerated, the general outlook is decidedly unfavorable. But for the extraordinary supplies carried over from last year, the manufacturers would be in trouble. But prices in goods rise each week, adding to the profit of mills, which on both sides of the ocean can use for some time to come old cotton bought at low prices. It is not yet clear how far the consumption will support the manufacture at the present rate and at the present prices for goods, though the demand from dealers is naturally urgent, while the market for the raw material is constantly rising. There is still some chance of a strike in Fall River mills, though the rise in prices will make it easier for the mills to grant some advance in wages.

"The wheat market has been much excited without much discoverable reason, and the price has advanced over 5 cents for spot and 2½ cents for December deliveries. It may be said that crop prospects abroad are not quite so favorable as they were a month ago, and with a short supply at best in this country the market is liable to be unusually sensitive. Western receipts for the week have been 5,501,553 bushels, against 5,432,254 last year, and for the month 22,393,228 bushels, against 21,923,883 last year. The exports from Atlantic ports, flour included, have been 1,887,501 bushels for the week, against 2,440,584 last year, and for the past four weeks 7,324,631 bushels, against 3,772,318 last year. Holders of corn have judiciously declined to 'sympathize' with wheat to a great extent, and the price is practically unchanged. Pork and hog products are all somewhat lower.

"Nothing is clear about the iron and steel manufacture, but some of the largest Pittsburgh concerns, professing to have orders for many months ahead, are bidding for small contracts in eastern markets at \$1 to \$1.50 per ton less than the quoted rate, and again it is thought that the object may be to buy materials, but contracts have been made at the east for 250,000 tons of foreign ore to be used in Bessemer iron-making at eastern furnaces, and the termination of the Marquette strike sets free about half a million tons more of Bessemer ore within the period of lake navigation.

"There is also a halt in the advance of leather, no higher prices having been recorded this week, though hides are on the whole a shade higher.

"The advance in wool at London sales stimulated the speculation here, but prices are on the whole unchanged and sales have been for the month 34,675,970 pounds, of which 10,566,370 were foreign, against 31,021,000 for the same weeks of 1892, of which 9,523,900 were foreign. While the demand for dress goods continues fair, there is no discoverable improvement in men's wools, and the importations continue very heavy.

"Failures for the week have been 216 in the United States, against 235 last year, and 50 in Canada, against 55 last year."

### CATTLE TRADE IN DANGER.

**South American Competition Threatens to Hurt Us.**

Washington, Sept. 28.—Dr. Wray, the representative in London of the United States department of agriculture, reports that the admission of cattle from the United States may be considerably affected by the question now up as to removing all restrictions on the admission of South American cattle. He says it is the opinion of well-informed persons that if the South American governments demand unrestricted admission the British department of agriculture will be compelled to sanction a bill requiring all foreign cattle to be landed and slaughtered at the foreign cattle markets of England, whether those countries have any diseases among their cattle or not. Dr. Wray adds that up to the present time no contagious disease has been discovered among South American cattle, so that, without such a bill, the British government could hardly refuse to let the South American cattle come in free of restrictions if the privileges were asked.

### England Sends Warships.

London, Sept. 28.—The Pall Mall Gazette prints a dispatch from Shanghai which says: "Appearances indicate that England is finally in earnest in regard to the massacres in China. Five warships are now on the river Yangtse-Kiang proceeding toward the scenes of the disturbances and four more are expected to start tomorrow.

## WESTERN BASEBALL LEAGUE.

**Question of Franchises Not Yet Fully Decided.**

Chicago, Sept. 30.—The Western League magnates were in session all day yesterday wrestling with the question of the Minneapolis franchise, left over from the day before. The franchise was finally granted. The league complimented Byron B. Johnson of Cincinnati by re-electing him president of the organization. He has been president, secretary and treasurer of the league since its organization two years ago. Only six of the clubs to constitute the league next season have been decided upon. These are, with the persons to whom the franchises will be issued, as follows: St. Paul, Charles Comiskey; Minneapolis, John Goodnow; Detroit, George A. Vanderbeck; Kansas City, James Manning; Milwaukee, Mat Killilea; Indianapolis, W. F. C. Golt.

Other applicants for the remaining two franchises are: Columbus, Toledo, Omaha, Rockford and Grand Rapids. It is probable Columbus and Omaha will be selected today, and the franchises now held by Toledo and Grand Rapids will simply be transferred without changing ownership.

### A BIG COMBINATION.

**All Mills Unite to Control Spring Wheat Flour.**

Niagara Falls, N. Y., Sept. 28.—A Buffalo miller in this city makes known that the spring wheat flouring mills of the United States are now engaged in clamping together a combination calculated to put to shame all other trusts in that it will have for its object the control of the spring wheat supply of the country and the dictation of prices. The idea arose at the recent meeting of the Millers' association and has been working since not under written articles of agreement, but on the honor of the millers themselves. The plan formulated in Minneapolis looks clever. A minimum price will be established; none of the members of the combine will be allowed to sell below it, but they are at liberty to get as much more as they can.

### THE SILVER LEAGUE.

**Leaders of the Indiana Body Are Confident of Success.**

Indianapolis, Ind., Sept. 28.—The executive committee of the State Democratic Silver League met here yesterday. In an interview President Clark declared that, while the movement was being kept wholly within the democratic party, it was rapidly spreading over the state. He continued: "Some of the most influential democrats in the state are taking interest in the organization. The men who are at the head of the movement believe they will have such a perfect organization early in the year that they can name at least ten of the state committee; can control a majority of the district conventions that select delegates to the national convention, and will be able to control the state nominating convention and exact from it a free silver resolution."

### Hinshaw Murder Trial Closing.

Danville, Ind., Sept. 28.—The Hinshaw murder trial has taken on its closing phase. Prosecuting Attorney O. E. Gulley opened the argument for the state Thursday and E. G. Hogate for the defense yesterday. A complete analysis of the evidence was given. Public opinion is forming strongly against the defendant and if he is acquitted it will be a surprise to the community. The defendant holds with bitter tenacity to his story as told to the coroner that there were burglars at his house on the night of the tragedy. Henry N. Spaan will perhaps close the case by next Wednesday noon.

### Homesteaders Burned Out.

Kiowa, Kan., Sept. 28.—A disastrous prairie fire is raging in the western half of the Cherokee strip and is sweeping everything before it. Several houses, principally prairie shacks, and hay stacks without number have been burned. It has a clean sweep for a distance of 100 miles without anything to stop it. Luckily the country is thinly populated, but there are a great many cattle and goat ranches that will suffer. Three homesteaders' houses, north of Alva, caught fire in spite of efforts to save them and burned to the ground with their contents.

### Alix Seriously Injured.

Springfield, Ill., Sept. 28.—Andy McDowell, the driver of Alix, announces that the little mare is badly injured and may not be able to trot again this season. He says she sprained a whiplash in her effort yesterday afternoon by striking a hard spot in the track just as she was starting down the home-stretch. She was sent against the world's trotting record of 2:03½, but cast a boot at the first quarter, making her lame, and finished in 2:13¾.

### Grand Jury Indicts Builders.

New York, Sept. 28.—The grand jury ordered indictments for manslaughter in the second degree against the following men, who are held responsible for the collapse of the Ireland building Aug. 7 last, when fifteen men were killed: Thomas Murray, mason, foreman; Thomas Walker, superintendent; John Parker, contractor; Dennis Buckley, ex-inspector of the building department; Charles F. Beyrens, architect; Edward J. Youdale, architect's assistant. The punishment on conviction for this offense may be as high as ten years' imprisonment.

## BARNUM GYMNASIUM GOES UP IN SMOKE

**BIG FIRE RAGED AN BRIDGE-PORT, CONN., TODAY**

**Three Firemen Were Injured by Falling Walls and the Loss Will Be a Quarter of a Million Dollars—Fatal Accidents on the Railroads—Wreck at New Orleans.**

Bridgeport, Conn., Sept. 28.—Fire destroyed the Barnum gymnasium and several large wholesale houses. Three firemen were injured by falling walls and the loss will be a quarter of a million dollars.

Clarksville, Mo., Sept. 28.—At 2:15 p. m. yesterday the north-bound passenger on the St. Louis, Keokuk and Northwestern road struck a mule at the switch at Annada, eight miles south of this place. The engine, tender, and all the cars were derailed and badly wrecked, the baggage car being thrown squarely across the track. Conductor Moulton was rather severely cut about the head. The fireman, Frank Hafner, jumped and escaped unhurt, but the engineer, J. P. Murphy, stuck to his post most valiantly, and to his faithfulness no doubt many owe their lives. The injured are:

James Wilson, Rockport, Ill., cut about the head and face, and back and left side bruised.

Mrs. James Wilson, Rockport, Ill., cut on head and contusion of left breast.

Mrs. M. S. Patterson, Meadville, Mo., very badly injured about face, head and throat.

J. W. Bowker, Dorchester, Neb., slightly hurt in back and side.

Mrs. J. W. Bowker, Dorchester, Neb., ankle sprained, face and head badly cut.

Mrs. James Brown, Hannibal, Mo., ribs broken.

Miss Belle Fleming, Hannibal, Mo., slightly injured in right arm and shoulder.

T. P. Turner, Hannibal, Mo., traveling for Hixson Shoe company, Hannibal, injured internally quite seriously.

E. A. Collins, colored, cook on dining car, slightly injured in left leg.

Frank S. Brown, No. 140 Broadway, New York, traveling for D. F. Lieberman Co., injured in back and hands.

A relief train bearing physicians and volunteers from Clarksville and Louisiana went to the scene at 4 o'clock. A later special took all the passengers, the wounded being made as comfortable as possible in the mail car, and proceeded north. W. E. Cunningham, general superintendent of the road, was in the wreck, and was bruised up somewhat. The accident occurred immediately at the station, and trains ran without interruption, using the house track.

### KILLED ON THE TRACKS.

**Sad Accident Mars the Pleasure of an Iowa Festival.**

Council Bluffs, Iowa, Sept. 28.—A fatal accident marred the pleasure of the apple carnival at Glenwood, Mills county, twenty miles south of here, yesterday, at the close of the morning exercises in the courthouse yard. An invitation was issued to strangers to visit the Iowa school for feeble-minded children, carriages being provided. On the return trip, while twenty persons were crossing the Burlington railway tracks, the fast mail from Chicago came along at a rapid rate. The driver attempted to cross the track, but the locomotive struck the rear end of the vehicle, tipping it over and hurling people right and left. The killed:

REED, B. U., Blue Springs, Neb., secretary state horticultural society.

Among those in the vehicle who escaped with only a few bruises were: Bechtel, J. M., division freight agent of the Kansas City, St. Joseph and Council Bluffs railroad.

Plickinge, A. T., Council Bluffs.

Plickinge, Mrs. A. T., Council Bluffs.

Mr. Reed was thrown into the air and so badly mangled by his fall that he died in a few minutes. The others are not badly hurt, but escaped by a miracle.

### Three Men Hurt.

New Orleans, La., Sept. 28.—The parting in the middle of a south-bound fast freight on the Illinois Central at Gorman, Miss., last night, resulted in four men, three white and one colored, being injured, two of them very seriously. The three white men were brought to this city today and taken to the hospital. They gave their names as T. W. Twomey, a railroad man; W. Fox, a laborer; and Stephen J. Johnson, a bricklayer, all residents of Chicago. The two first named are single, but Johnson is married, and the father of five children. The fourth man, the colored fireman, was left at the scene of the wreck, and is reported dying.

### Campos May Be Given Power.

Washington, Sept. 28.—Members of the Cuban Junta here say there is a prospect of Martinez Campos being made captain-general of Cuba and given ample authority to assist in quelling the present uprising. While Campos would be in every way satisfactory to the patriots the opinion is expressed that matters have progressed too far to permit a settlement which would be in the nature of a compromise.

## TO ALLY REPUBLICS IN SOUTH AMERICA

**COUNTRIES SOUTH OF US MAY COMBINE**

**A Proposal Made to Unite for Mutual Defense Against Powers of Europe—British Aggressions Said To Be the Cause—Venezuelan Question Still Unchanged.**

Washington, Sept. 28.—An attempt is being made by diplomats resident in Washington to perfect an agreement among the South American republics for mutual protection against the aggressions of European nations, with special reference to Great Britain. Individually these countries are not strong enough to cope with any of the leading European nations, and they feel that their only safety is in co-operation. It is likely that this co-operation will take the form of the resistance by all the nations of this continent of any further aggression on American soil by European nations.

If this agreement is entered into it will result in all of the American republics considering that any violation of the Monroe doctrine in any country is an injury to all. Such methods as Great Britain adopted for collecting an indemnity from Nicaragua, it is thought, should not only be condemned, but decisive action should be taken so that no nation on this continent could be placed in a position to tamely submit to such treatment.

There is no advance or change in the status of the Venezuelan question, so far as can be learned from all available official sources in Washington, including the Venezuelan minister. Notwithstanding this fact there has been much speculation, some of it being of a decidedly warlike tendency, indicating a determination to adopt vigorous steps in asserting the Monroe doctrine as applicable to Venezuela. Since Lord Kimberly's answer to Mr. Bayard setting forth England's position, an American syndicate has secured large concessions from Venezuela of land in the disputed territory. It is along the south bank of the Orinoco, so situated that if the American claimants enforce their concession and have the support of the United States government a direct issue with Great Britain is inevitable. Congressman Livingston of Georgia, who is familiar with the affairs of the American company, says that men will be sent to take possession of the territory. He has expected that this would lead to a conflict, in which case the company would appeal to the United States for protection of its rights.

### MAY BE A BIG STRIKE.

**Eastern Operators Must Pay Coal Miners' Advance.**

Chicago, Sept. 28.—Trouble between the mine-owners and employees in the Danville district, it is now thought, will be delayed two weeks because of new complications which have arisen in the east. The movement to demand a better schedule than 47½ cents, which has been instigated by mine-owners, who have to pay better rates in the rival Indiana fields, will likely result until the Pittsburgh rate has been finally settled. Word has come from Pittsburgh that there is danger of the mine-owners kicking out of the traces, and if that occurs the whole industry will be thrown into chaos and a national strike will undoubtedly be precipitated. As the eastern schedule sets the pace for the western prices no changes are expected here until the eastern matter is settled. Eastern operators have called a meeting for Oct. 10, to decide whether the advance shall be paid or not, but few expect that the miners will work that long before calling for an understanding.

### Indiana Temperance Leader Arrested.

Crown Point, Ind., Sept. 28.—The famous Nicholson saloon law is the cause of one of Indiana's most prominent temperance leaders being behind the bars of the county jail. The person is Hans C. Hanson, editor of the Advertiser, a prohibition paper at Hobart, also late candidate for congress on the prohibition ticket. The trouble was brought about over temperance affairs. Attorney Conroy acted for several saloonmen at Hobart. Affairs did not move along as satisfactorily as Hanson wished, so he devoted nearly a page of his paper to denouncing the attorney. The editor takes his arrest hard. Temperance people have offered to pay Hanson's bond, but he refuses to accept, saying he would rather live in jail at the county's expense.

### More Armenian Massacres.

Antioch, Sept. 28.—Ottoman officials here have succeeded in exciting Mussulmen with the report of an impending massacre by Armenians. As a result of this, Mussulmen accompanied by police raided an Armenian church and searched the building for arms. The Armenians resisted, and in the conflict which ensued ten of them were killed. A reign of terror prevails at Kemah and Erzenen, owing to oppressions by the Turks. Many Armenians have been arrested.

### No Games Given Away.

Philadelphia, Pa., Sept. 28.—Colonel Rogers denies the statement that the Phillies threw games to Baltimore, and offers a big reward to any one who will prove such charges.

## BIG FIRE AT WEST SUPERIOR

**Daisy Milling Company's Plant Burned This Morning—Loss \$100,000.**

West Superior, Wis., Sept. 28.—[Special]—The Daisy Mill elevator burned this morning, and the loss will be \$100,000.

### ELECT DELEGATES.

**Rock River Methodist Conference Chooses Its Representatives.**

Elgin, Sept. 28.—After four secret ballots the Rock River conference elected ministerial delegates to the general conference yesterday. They are: Rev. Dr. F. M. Bristol, of Evanston, Rev. Dr. Lewis Curtis, of Chicago, Presiding Elder H. G. Jackson, of Chicago, Presiding Elder M. E. Cody, of Joliet, Dr. P. H. Swift, of Oakland Church, Chicago, Rev. Dr. W. A. Spencer, of the board of church extension. Rock River is entitled to seven ministerial delegates, and a fourth ballot was held to choose the remaining representative, but it resulted in no choice and Bishop Goodsell decided to keep it secret until today.

A resolution that women are eligible to positions as lay members in the general conference was carried with but one dissenting vote, but a motion to remove the time limit in the appointment of pastors was defeated after an hour's debate. The resolution to elect the bishops for a limited time was laid on the table after a struggle. Matters were evened by adopting a resolution advocating the appointment of bishops to a defined district for a term of four years. Following this was the adoption of a resolution calling for the appointment of a layman to the bishops' cabinet. Removal of the time limit in the appointment of ministers was defeated.

After the morning session the conference devoted the remainder of the day to missions. At 2:30 o'clock the Woman's Foreign Missionary Society celebrated its anniversary. Mrs. Abel Bliss was the chairman of the meeting and an address was delivered by Miss Mabel A. Danforth. An hour later the Home Missionary Society held a meeting, presided over by Mrs. Budlong, of Rockford. Mrs. J. H. Bayless, of Evanston, made the principal address.

### SPAIN GIVEN WARNING.

**Three Months Set as the Limit to Put Down Cuban Rebellion.**

Washington, Sept. 28.—Spain must crush the Cuban rebellion during the next three months or submit to international interference in the interest of humanity and commerce. That is the significance of a series of conferences just held between Secretary Olney and the Spanish minister, Senor Dupuy de Lome. The United States has agreed for the present to keep hands out of the trouble, but this is accompanied by a tacit warning that unless Spain carries out her promise of suppressing the insurrection and restoring order to Cuba within reasonable time she must expect the United States government to pursue quite a different course of policy. In other words, Spain is to be given one chance to demonstrate her ability to rule the island, and, failing in this, the chances are the United States government will take the leadership in international intervention, with the complete autonomy or perhaps the independence of Cuba as the objective point.

### Women Win in Two Conferences.

Ironton, Ohio, Sept. 28.—The Ohio Methodist Episcopal conference of lay delegates yesterday voted to seat women as delegates in the conference. Mrs. Jane Bedford was chosen a lay delegate to the general conference.

La Crosse, Wis., Sept. 28.—The West Wisconsin annual conference at Sparta voted with but three dissenting voices in favor of the admission of women to seats in general conference. Bishop Foster remarked that if he had a vote there would be four against it.

### Kansas Political Parties Fusing.

Topeka, Kan., Sept. 28.—Secretary R. H. Semple of the populist state central committee has information that of the county conventions already held in Kansas there has been a fusion between the populists and democrats in seventeen counties. In four counties there has been a combination between the democrats and republicans and in several county the republicans and democrats held a joint county convention.

### Mora Claim Finally Paid.

Washington, Sept. 28.—Secretary Olney received information yesterday that the Mora draft for almost a million and a half dollars has been paid in London by the Spanish financial agent. The money was paid in gold and probably will be transferred to this country by cable drafts and placed to Secretary Olney's credit in the New York sub-treasury.

### Evidence in the Coffin Case Closed.

Indianapolis, Ind., Sept. 28.—The trial of Coffin Brothers for complicity in wrecking the Indianapolis National bank was concluded yesterday. It is conceded that the government has not made as strong a case in this trial as in the other. Friends of the Coffins believe they will be cleared.

### Ku Cheng Inquiry Stopped.

Shanghai, China, Sept. 28.—It is reported here that the Chinese have stopped the inquiry at Ku Cheng Mansfield, the British consul at Foo-Choo, one of the commission of inquiry, was insulted.

## RECEIVERS CHOSEN BY JUDGE JENKINS

**NEW MEN PUT IN CHARGE OF THE N. P. SYSTEM,**

**E. M. McHenry of St. Paul and Frank Bigelow Are the Men, Their Appointment Being Made This Morning—Strong Pleas for Delay Made—Forest Fires Raging.**

Milwaukee, Sept. 28.—[Special]—Edward W. McHenry, of St. Paul, and Frank Bigelow, a banker, were appointed as receivers of the Northern Pacific railroad, by Judge Jenkins today. The judge yesterday accepted the resignation of Thomas F. Oakes, Henry C. Payne and Henry C. Rouse as receivers of the Northern Pacific Railroad company, although the attorneys representing the stockholders, the bondholders and the re-organization committee made strong pleas for delay, saying they wanted an extension of time so an attempt could be made to secure an agreement among the judges along the line of the road as to who should be the new receivers. Judge Jenkins announced that he would name the successors of Messrs. Oakes, Payne and Rouse to-day.

**Wisconsin Fires Still Burning.**

Manitowish, Wis., Sept. 28.—Forest fires are still raging around the villages of Tisch Mills and Kellerville. The fires at Tisch Mills did not abate until two more farmers suffered severe losses. The fire is now in the woods, but not burning as fiercely as it was Thursday night. The farmers in the vicinity are making heroic attempts to put the fire out and stop it from spreading to adjoining property.

**Will Allow an Investigation.**

Constantinople, Sept. 28.—An Armenian named Guedjian, who claimed to be a citizen of the United States, was recently sentenced to a long term of imprisonment upon the charge of being an emissary of an Armenian revolutionary society. Alexander W. Terrell, United States minister to Turkey, demanded of the Sublime Porte that sentence in the case of Guedjian be suspended until it could be ascertained whether or not he had forfeited the right of protection by the United States. The Porte has now telegraphed to the authorities at Aleppo to allow the United States consul to investigate the case, and to see the prisoner.

**German Methodists in Conference.**

Lemars, Iowa, Sept. 28.—The German Methodist Episcopal conference for the district composed of Iowa, South Dakota, Northern Illinois, and Southern Wisconsin, Bishop Joyce presiding, yesterday elected Rev. E. W. Henke, presiding elder of the Galena district, to be a delegate to the general conference. Rev. W. M. Koerner, presiding elder of the upper Iowa district, was elected as a reserve. The conference decided unanimously against the Hamilton amendment and against the admission of women to the general conference.

**Culberson Has a Hard Task.**

Dallas, Texas, Sept. 28.—In order to prevent the Fitzsimmons fight coming off here Oct. 31 Gov. Culberson will have to induce the legislature to tack an emergency clause on whatever legislation is passed, making the law effective at once. It is thought he will not be able to do this. The main efforts of the people opposed to the position of the governor, it is learned, will be to defeat the emergency clause. The fact is the public regard the attitude of the governor as being prompted by personal ill-feeling towards Dan Stuart, growing out of politics.

**Foreclose a \$100,000 Mortgage.**

Cheyenne, Wyo., Sept. 28.—Yesterday Judge Riner signed a decree of foreclosure in the case of the American Loan and Trust company vs. the Oregon Short Line and the Northern railway companies, finding the defendants indebted to the plaintiff on consolidated bonds and interest in the aggregate principal sum of \$10,895,000. In default of payment within thirty days all the railways covered by the consolidated mortgages shall be sold at Salt Lake City.

**Epidemic of Typhoid Fever.**

Chicago, Sept. 28.—Typhoid fever is epidemic in Lake View, a suburb of this city. While the spread and prevalence of the disease are not so great in Hyde Park and the Town of Lake, still conditions in these two sections of the city are so severe as to cause alarm. In Lake View it is reported there are at least 1,000 cases of typhoid fever now. There is scarcely a block in the district without one or more cases.

**Tobacco Burned in Cincinnati.**

Cincinnati, Ohio, Sept. 28.—At 9 o'clock last night the Commerce street end of one of the storage houses of the Cincinnati Leaf Tobacco company was found to be on fire. Two thousand, seven hundred and seventy-five hogsheads of tobacco were stored in it. The average contents of a hogshead is 1,300 pounds. At a very low price the tobacco stored in this warehouse is worth \$250,000. The total loss is not less than \$300,000.

## DR. GREENE'S NERVURA

Alderman John Dever Advises Use of This Grand Medicine

Boston's Popular City Official Says Dr. Greene's Nervura Makes You Strong and Well. The Best Medicine You Can Possibly Take.

BOSTON'S POPULAR ALDERMAN HON. JOHN F. DEVER.

The most popular and widely-known official in Boston's city government is Alderman John F. Dever. A prominent leader of his political party he is essentially a public man, and has long served the city of Boston in positions of the highest trust and honor. The word of a man of such public prominence and standing, can be taken by all as the earnest utterances of one who always has the good and well-being of the people at heart.

Hon. Mr. Dever is connected with the New England Piano Co., 200 Tremont St., Boston, Mass. The following letter from Mr. Dever will be read by everybody with the utmost interest, and command the wide-spread attention which the high standing of the writer justifies.

"I was induced to try Dr. Greene's Nervura by a personal friend who has known Dr. Greene as a physician of high standing for many years, and it gives me great pleasure to give to the public my unqualified endorsement of its curative properties as the great nerve and blood remedy.

"It is particularly helpful in neuralgia and rheumatism, and is the best remedy I know of to tone up and strengthen the nerves and invigorate the blood. When from over-work, or strain upon the brain and nerves,

A Golden Harvest is now insured to the farmers of the west and Northwest, and in order that the people of the more Eastern states may see and realize the magnificent crop conditions which prevail along its lines, the Chicago, Milwaukee & St. Paul R'y. has arranged a series of three (3) harvest excursions for August 29, September 10 and 24, for which round trip excursion tickets (good for return on any Friday from September 13 to October 11 inclusive) will be sold to various points in the West, Northwest and Southwest at the low rate of about one fare.

## WOMEN AS FINANCIERS.

Bank Presidents, Holders of Bank Stock and Employees.

Women have now invaded so many departments of business life and are occupying successfully so many places of importance in all manner of industries and enterprises that one is hardly surprised at hearing of their achievements in any direction. But if the average man might suppose that there was yet one department of commercial activity which woman has not prospected, it is most likely he would think it was that of finance and the management of financial institutions, says the New York Sun. Woman is usually credited by man with being somewhat weak in this direction. But that is only one other of man's mistakes about woman. In the forthcoming report to congress of the comptroller of the currency there will be a chapter on woman's interest and activity in financial affairs that will greatly surprise many people. It will show that there are several very able women bank presidents in this country, a large number of women directors of financial institutions, a very large number of women employed in subordinate places in such institutions, and a surprising number of women who own stock in banks and take a lively interest in their affairs. The west, as usual, makes the greatest showing in this matter, as in most others concerning the ascendancy of woman. Several national banks in the west have women presidents, and many others have women occupying places of trust and great responsibility. All over the country there are financial institutions of one kind and another that number women on the board of directors. The comptroller's statistics will not be made public in detail for some weeks yet, but some notable facts and figures are given in recent reports. In whatever places of trust women have so far been employed they have shown themselves particularly shrewd and altogether discreet and trustworthy. They are proof against most of the temptations that cause men to fall from grace when intrusted with the handling of other people's money, and have proved conscientious and faithful. According to the comptroller's last report, 367 women were then employed in national and state banks, but since that time the number has been very largely increased. At that time 1,733,772 shares of stock in national banks, representing a value of \$130,681,492, were owned by 70,697 women. Of state bank shares women owned 481,098, representing \$38,074,712, which were in the hands of 23,146 individual holders. Estimating the average dividends from this stock at six per cent, the women of this country draw about \$10,000,000 a year in incomes from financial institutions.

If the Baby Is Cutting Teeth, Be sure and use that old and well-tried remedy Mrs. Winslow's SOOTHING SYRUP for children. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhea. Twenty-five cents a bottle.

It's just as easy to try One Minute Cough Cure as anything else. It's easier to cure a severe cough or cold with it. Let your next purchase for a cough be One Minute Cough Cure. Better medicine; better results; better try it. C. D. Stevens.

## WARNER'S WILD IDEA

What ails this man Warner, of New York?

What nerve food does he use?

What inspired him to lay out a financial program for the republicans.

"If the republicans of this congress fail to do something substantial affecting the currency question," he says, "Cleveland's renomination is inevitable."

Warner must have odd notions about the powers and obligations of minorities. The republicans have one branch of congress and no more. All the rest of the government is against them. On the silver question the president and the republicans are in agreement but the silver question has been put into a sleep from which neither the president nor the republicans want to wake it, while the greenbacks and the bank currency questions present differences that the republicans have no power to settle.

## A DEEP WATER CANAL.

What hope is there of a ship canal across New York state? The railroads would fight it, and what the railroads fight in New York might as well be considered dead. Moreover, there would be popular opposition. A scheme which contemplates the unbroken passage of steamships loaded with grain at Duluth or Chicago through a waterway of adequate capacity to the ocean and across it to European ports without breaking bulk and paying transfer charges at Buffalo or New York is not likely to command the enthusiastic support of the people of New York. It would be opposed with the same vigor that it would be supported in the west.

## SET SIEGE TO THE POLE.

Lieutenant Pray's two failures—complete though they were—have done much to show how the north pole can be reached. There must be a regular siege approach. The wild dashes made to reach the pole have been more or less disastrous and have become tiresome. A slow march upon it, keeping the "cracker line" open, with depths of abundant supplies at frequent intervals, is the rational plan. The cost would be many millions, and the property right acquired by the expedition might not be sufficient compensation.

Privates in the civil war are getting scarce, but there is one in the presidential race—Wm. McKinley, of Ohio, who carried a musket for a year in Col. Rathford Hayes' regiment.

Perhaps there are people who associate the cold wave with the attempt to propagate third-term ideas at the Syracuse convention, but there was no real connection.

If Campbell believes that Brice wishes him to be the next democratic candidate for president he should at once consult a good brain doctor.

Verily, the millennium must be just around the corner, where New York officials are threatening to resign because of adverse public criticism.

Adlai Stevenson was at the Chickamauga celebration, but where is he now, and what does he think of the silver question, anyway?

The old democratic firm of Dick and Dave has been revived, but "Bill" Whitney's attempt to become a silent partner, didn't succeed.

We stop the press to announce that Cleveland's sympathy for the struggling Cubans is as warm as ever.

Brice would make an ideal presidential candidate—for the sugar and other trusts.

Senator Mills is finding out that Texans do not like wobblers.

## After a Lion.

"Who is this Dean Swift they are talking about?" whispered a society lady to Lady Bulwer at a party. "I should so like to invite him to one of my receptions."

"Alas, madam, the dean has done something that has shut him out of society."

"Dear me, you don't say so? What a dreadful thing," said the lady in a breath. "And what was it?" she added. "Well, about a hundred years ago he died."—London Tit-Bits.

## Intangible Cargo.

Port Officer—Yes.

Captain—One thousand cases of eggs.

Port Officer—Yes.

Captain—Three cases of yellow fever.

## Their Literary Achievements.

"So she rejected Herbert and chose Will?"

"Yes. They both did their best to please her. She has literary tastes, you know, and Herbert sent her a beautifully written volume of poems."

"That should have made a good impression."

"It did. But Will showed her his carefully edited bankbook."—Washington Star.

## A Matter of Inheritance.

Tommy (inspecting himself in the looking glass)—Papa, there's a little mole on the right side of my nose just like the one Uncle Scadds has on the right side of his nose. I must have got that from him.

## COLORS AND MATERIALS.

Combinations of Green and Blue—Suitable Belts, Passementerie and Buttons.

Cornflower blue is still worn, while blue and green is a combination entirely a la mode just now.

If you will persist in wearing a round belt and yet wish your waist to look small, have it encircled by a black band, without bow or chon, secured simply by a buckle of gold, silver or steel. It is only slender women who can afford to wear a belt at all, and even then that accessory is more suitable to a girl in her teens than to a mature woman.

Passementerie and brilliant buttons are the fashionable trimming for alpaca gowns, which are the reigning autumn favorites.

It is said that plush and velvet striped silks will be fashionable this winter, the

TAFFETA COSTUME.

heavy stripes to be a finger's width across and dark in contrast to a bright ground of a plain or changeable tint. Louis Quinze knots, black on black, will also be fashionable. Winter costumes are to be exceedingly rich, as they were last year.

White is very fashionable just now, as are all bright and conspicuous colors. In fact, brilliant colors have ceased to be conspicuous because they are so much worn.

Satin, moire and peau de soie are employed for wedding gowns, especially satin. Mousseline de soie often forms a plastron and ruffles for the bodice. The most fashionable skirts are cut with godets, have a long train and are quite plain.

Although with costumes of ceremony stockings of the same color are preferred, black hosiery continues to be most worn for ordinary occasions.

The costume shown in the sketch is of rose and green glace taffeta, with green spots. The skirt is laid in three box plaits in front, between which are panels of ecru lace. The blouse bodice has also three plaits in front, similarly separated and ornamented with red silk buttons. The gigot sleeves are of silk ornamented in front with plaits of ecru lace held at the shoulder by knots of rose satin.

JUDIC CHOLLET.

A good sewer always selects a thimble which has a plain or nearly plain rim, so that the thread will not catch. Gold thimbles, with forgetmenots set round the edge, are pretty keepsakes, but are not of much use. A good thimble has deep holes to prevent the needle from glancing off and striking the hand.

## Famous Arson Case Ended.

Lewistown, Ill., Sept. 28.—Fulton county's famous arson cases came to a sudden and sensational ending yesterday, when Judge Orr delivered a long opinion, in which he decided that the alleged confessions of Baughman, Brown and Henry, who were charged with burning the court house, were obtained by fraud and violence and could not go to the jury. In consequence, all were acquitted.

## TO CURE PILES.

A Remedy That Will Do It and is Perfectly Safe.

We do not intend to indorse any except articles of real merit. We therefore take pleasure in calling attention to a new pile cure which has been remarkably successful in curing every form of itching, bleeding or protruding piles. The remedy is known as the Pyramid Pile Cure and is recommended by the best medical authorities on account of its absolute safety, ease of application and instant relief from pain.

The Pyramid Pile Cure contains no opium or other poison and does not interfere with daily occupation while using. People who believe nothing but a surgical operation would cure them have been astonished at the results from a single 50 cent package of the Pyramid.

Mrs. Mary C. Tyler, of Heppner, Ore., writes: One package of Pyramid Pile Cure entirely cured me of piles from which I have suffered for years, and I have never had the slightest return of them since.

Mr. E. O'Brien, Rock Bluff, Neb., says: The package of Pyramid Pile Cure entirely removed every trace of itching piles. I cannot thank you enough for it.

The Pyramid Pile Cure is sold by all druggists at 50 Cents and \$1 per package. Treatise on cause and cure of piles mailed free by addressing Pyramid Co., Albion, Mich.

## TRINWITHS DEFIED ASYLUM OFFICERS

MENDOTA ATTENDANTS DID  
NOT GET THEIR MAN.

Family Backed Him Up and Dared the  
Keeper and the Two Constables to  
Come and Take Him—Woolen  
Mill Office Robbed—Police  
Stories.

"Go to Janesville; get the sheriff  
and if necessary call out the militia,  
but bring Thomas Trinwith back with  
you."

That was the telegram that was  
ticked off by the telegraph instrument  
at Milton Junction this morning.

It was addressed to the two attendants  
who were sent to Janesville to  
get Trinwith, and was in reply to their  
message asking for instruction after  
the Trinwith family had re-  
fused to allow them to take  
Thomas into custody. Early this  
morning the two attendants came  
to Janesville yesterday and decided  
to make Milton the base of their op-  
erations. They, together with Constable  
James Anderson went to the Trinwith  
home yesterday and were notified that  
their man was "out in the woods" so  
they returned to the village with the  
idea of going out again this morning.

Accordingly they had a team at the  
Junction about daylight and getting  
Constables Phil Osborn and Westley  
Stockman to go with them  
went to the Trinwith home, arriving  
there at 3:45 o'clock this morning.  
They found Tom at home, but the  
family rallied to his defense and  
dared the attendants and constables  
to step onto their land.

Thinking that discretion was the  
better part of valor, they returned to  
the Junction and telegraphed to Mad-  
ison for instructions receiving the  
telegram above stated. The two at-  
tendants then came to Janesville and  
told the story to the police and to  
Judge Phelps who referred them to  
Judge Sale, he being the one who  
committed Trinwith. The outcome  
of the difficulty is still one of the  
things yet to be figured out.

Robbed a Mill Office  
Thieves broke into the office of the  
Monterey Woolen mill company, at  
Monterey, last night, and stole two  
suits of new underwear and an over-  
coat. Entrance was effected through  
a window that was not locked. The  
desk and cash drawers were opened  
and the papers scattered about the  
room, but nothing of value except the  
coat and underclothes were taken.  
The police were at once notified and  
Chief Acheson and Officer Hogan visited  
the office. Chief Acheson said this  
afternoon that the work looked as  
if it had been done by  
local toughs, although some passing  
tramp might have been the man as  
the mill was located handy to the  
railroad tracks on the Afton branch.  
The coat stolen was one that had been  
worn and was brown in color. The  
underclothing taken was new. The  
office had been pretty thoroughly  
ransacked by the thieves as was  
shown by the disorder in which things  
were left.

Beloit Thief in Jail Here.

A tramp named John Wood is in  
jail here as the result of helping him-  
self to the overcoats of two Beloit  
men. The coats were stolen while  
the owners were in church, they hav-  
ing left their garments in a buggy  
outside. They reported their loss to  
the police who went out on a hunt for  
the coats, and after a while found a  
tramp wearing one and locked him  
up. The "bum" said "dat a feller  
comed along wid two coats and axed  
him if he wanted a coat, Cully, and he  
took it and dat de odder feller jumped  
on de train and left de town." The  
police were unable to find the other  
coat and as the gentlemen who lost  
the coats failed to appear in court  
when the time for the trial came, the  
tramp was sent to jail for five days.

The Swedish plumber who has been  
in jail recovering from an attack of the  
delerium tremens was brought be-  
fore Judge Phelps in the municipal  
court this morning and discharged  
he having got the better of the snakes  
who had been bothering him.

system which gives fine ventilation, in  
the auditorium and gymnasium.

### MUCH GRAIN BEING HELD BACK.

Local Speculators Say That Farmers are  
Holding Their Cereals.

Two grain dealers said this morning  
that in their years of dealings they  
never saw so few grain wagons  
upon the streets of Janesville. This is  
largely due it is said, to the fact that  
farmers are holding on. In one in-  
stance a man was said to have big  
bins of two year old oats which he is  
still holding for higher prices.

## WIFE'S HEART TORN BY UNCERTAINTY

MRS. THOMPSON THOUGHT HER  
HUSBAND DEAD.

Fear of He Was the Man Who Was  
Cut to Pieces By the Cars At Jef-  
ferson But Was Overjoyed to Find  
the Story Untrue—George Staffer  
the Victim.

For two hours this morning, Mrs.  
W. B. Thompson was tortured by un-  
certainty.

Was the man killed by the cars at  
Jefferson last night, her husband?

That was the question that caused  
her heart to come up in her throat. As  
quick as she heard of the accident she  
hastened down town and hunted up  
Chief Acheson. The chief was quite  
sure that the man was not Mr. Thomp-  
son, but to satisfy Mrs. Thompson he  
telegraphed to Jefferson and found  
that his belief was correct. The dead  
man was not Mr. Thompson, but  
George Staffer, a brewer, who had  
frequently worked here.

Mrs. Thompson's fears were well  
founded. She and her husband came  
to Janesville some time ago from the  
south, and learning that the chances  
for employment were better in the  
northern part of the state, Mr.  
Thompson left his wife at her board-  
ing place, and started out in  
search of work. Finding that the  
train on which the accident occurred  
was the one which he might have  
taken, she naturally became greatly  
alarmed. Mr. and Mrs. Thompson had  
been married but a short time and  
she had been expecting a letter from her  
husband, telling her where to join  
him, every day.

The Dead Man Was Staffer :

Staffer, the man who was killed  
was well known here where he had  
frequently worked at his trade—that  
of a brewer. The train on which he  
was killed left on the C. & N. W. road  
about 5 o'clock, it being an hour late.  
Staffer must have concealed himself on  
the trucks under one of the cars quite  
a ways from the engine. While pull-  
ing out from the sidetrack at Jeffers-  
on about 7:30 o'clock a brakeman  
saw him under the wheels and sig-  
naled to stop the train but that could  
not be done soon enough to save  
Staffer's life. The wheels ran over  
both legs cutting them off and caus-  
ing immediate death. It was neces-  
sary to jack the train up to remove  
the body. Staffer was about forty  
years of age and a German by birth.  
He was not thought to be married,  
although it was not known whether he  
was or not.

### WAS NOT ENTITLED TO DAMAGES

Lawsuit Between Farmers Over the Flow  
age From a Well

An interesting suit in which the  
right of a farmer to permit the flow of  
water from an artesian well to run  
through another man's land, was tried  
in the circuit court before Judge Ben-  
nett at Jefferson, and a verdict re-  
turned for William J. Pollock, the de-  
fendant. William H. Green brought  
the suit for \$750 damages. The de-  
fendant alleged that the overflow from  
the well had run through Mr. Green's  
land since 1872, and that the right  
had become established by the permis-  
sion thus granted. In 1872 the well  
was drilled deeper, which resulted in  
an increased flow of water. By the  
use of plugs the flow was reduced to  
not more than the previous volume of  
water, and the jury decided that the  
plaintiff was not entitled to damages.

cure headache, indigestion and con-  
stipation. They're small but do the  
work. C. D. Stevens.

## A FINE NEW CHURCH IS TO BE ERECTED

ST. MARY'S CONGREGATION  
OUTGROWS OLD QUARTERS

The Present Building Will Be Moved  
Back and Used as a Parochial  
School, While a Fine \$15,000  
Brick Edifice of Modern Design  
Will Take Its Place.

ST. MARY'S congrega-  
tion has outgrown  
its old church edi-  
fice, and plans are  
now being made to  
erect a new one.  
The question was  
put to a vote at a re-  
cent meeting, and it  
was decided to build a new church,  
although nothing in all probability,  
will be done this season. The idea  
originally advanced contemplated a  
building to cost about \$20,000, but in  
view of the present stringency and  
hard times, it has been decided to ex-  
pend not to exceed \$15,000. The new  
building will be of modern design and  
will be a credit to that part of the  
city. Brick will be the material used,  
and it will be put up in a substantial  
manner. It will be located on the  
site of the present building, at the  
corner of North First and Wisconsin  
streets and the old building will be re-  
moved to accommodate it.

Establish a P. rochial School.

This will give the society a chance  
to open a parochial school an institu-  
tion which St. Mary's church has not  
yet had. The old church will be moved  
back onto the lots owned by the con-  
gregation at the corner of Prospect  
avenue and Wisconsin street and used  
or a school building which arrange-  
ment will give ample room for time to  
come.

St. Mary's parish has been handi-  
capped by the want of room for some  
time. Under Father Roche's watchful  
care the congregation has grown until  
now the church will not accommodate  
the members and something must be  
done. The idea of a new building  
has long been under discussion and  
the original plan was to build a much  
finer building than is now contem-  
plated, but as times have been hard  
and money scarce it was decided to  
cut the first estimate of cost \$5000.

## FOLKS WITH PAINS

## HOW TO GET RID OF THE PAIN

Pains in the Back. Pains in the Muscles, Pains in the Joints, Pains in the Head.

## What Causes Them and What Cures Them.

Pain is a sign of disease. You want to get rid of it. There are two ways. Either to cure the disease or relieve the pain.

The first way is the better. The curing settles the disease and the pain. The relieving only helps the pain. It will come back again. The disease stays right where it is and eats away your health. You may not feel it while the pain is gone, but it is there just the same.

Pain in the back is kidney trouble. It can be cured with Dr. Hobb's Sparagus Kidney Pills.

It can be cured to stay away, and, with proper care, never come back. Kidney trouble gives a great deal of trouble to doctors.

It is hard to cure. There are so many complications. They are generally so dangerous.

Only Dr. Hobb's Sparagus Kidney Pills make such a large percentage of cures.

The asparagus, from which they are made, has such a healing, soothing curative action on the kidneys, it is such a gentle and healthful tonic, that it cures nearly every case of kidney trouble in which it is used.

Rheumatism is pain in the muscles. Lotions, etc., can only relieve the pain. They can't cure the rheumatism.

Rheumatism is a complication of kidney trouble. It is poison in the blood. The kidneys should have taken it out, but they didn't.

Hobb's Sparagus Kidney Pills will cure rheumatism. They do it by helping the kidneys in their work of purifying the blood. They do it so thoroughly that it is very seldom the rheumatism ever comes back.

Pain in the joints is gout. It is caused by a poison like rheumatism. It can be cured on the same plan, by curing the kidneys, by taking Dr. Hobb's Sparagus Kidney Pills.

Pain in the head. This is a symptom of brain trouble, but it is caused by the kidneys.

The brain in working, uses up its substance. The blood supplies new substance. But when the blood is impure (on account of sick kidneys) it gives no nourishment. The brain wears out. As it wears it pains. This is its danger signal.

Headaches, dizziness, neuralgia, etc., can be cured with Dr. Hobb's Sparagus Kidney Pills. They do it by curing the kidneys, by renewing the purity of the blood.

People who have suffered from pains and aches for years should try Dr. Hobb's Sparagus Kidney Pills.

Pure blood will end their aches and give them a new feeling of life and comfort.

For the blood is the life. But it must be pure blood.

Dr. Hobb's Sparagus Kidney Pills are for sale at all druggists at 50 cents a box or will be sent to any address, postpaid on receipt of price.

## THE LIONS ROARED.

They Recognized Their Old Friend and Were Overjoyed.

Considerable excitement was caused in the big zoo at Glen Island by an incident which demonstrated the memory and sagacity of a huge African lion, and a lioness. The beasts had been yawning before several thousand people, when something suddenly attracted their attention. They bounded against the bars of the cage as if in a vain attempt to gain their freedom, and at the same time let out a series of roars that could be heard half a mile away. The tigers in the adjoining cages became interested and added their roars and growls. In an instant every animal in the big zoo, and there are over 1,000 of them, had joined in the frightful chorus. The shrill bark of the hyenas and wolves was heard above the rest, and added actual terror to the scene. Finally the huge elephant Siam caught the fever and, holding his trunk high in the air, gave a roar that was plainly heard at the other side of the sound. The fawns and deer and the little baby zebu dashed into the sheds, trembling with fright, while the monkeys groveled with terror at the bottom of their cages. Walter Bannister, the keeper, and half a dozen assistants were at once on the scene to make an investigation. It puzzled them. There was no apparent cause for the excitement, yet the big lions continued their roars and bounded about the cage. "Turn the hose on him; he's got mad," suggested one of the spectators, who said he knew all about lions, as he had read a book on animals in his boyhood. Things were becoming furious, when an elderly man forced his way through the crowd. "This is all my fault, sir," he said to Mr. Bannister. "My name is Tom Leroy, and I've handled lions all my life." As he spoke he stepped over the railing. Mr. Bannister at once recognized the name and made way for him. The man went close to the cage and thrust his two arms between the bars. The lions for a moment seemed frantic, then quieted down and began to lick the man's hand as the crowd fell back, expecting each instant to see the man injured. He explained to Mr. Bannister afterward that he had trained the lions to do many tricks years ago, and had traveled with them for many seasons. He had not seen them for some years, yet they recognized him the moment he came within sight of the cage, and made an uproar that was quieted as soon as he caressed them. The beasts had passed through several dealers' hands before coming to Glen Island, and it was not known that they were trick lions until Mr. Leroy informed Mr. Starin's representative.—New York Tribune.

One reason why women are so generally troubled with some derangement of the distinctly feminine organism is that as girls they learn nothing about their own physical make-up. Parents are waking up to the importance of education of this kind, and young women are becoming more and more able to take care of their health.

Carelessness in girlhood causes the greatest suffering and unhappiness in after life. Little irregularities and weaknesses in girls should be looked after promptly and treatment given at once. Dr. Pierce's Favorite Prescription promotes regularity of all feminine functions, makes strength and builds up a sturdy health with which to meet the trials to come. The "Favorite Prescription" is not a universal panacea. It is good for but one thing. It is directed solely at one set of organs.

Dr. Pierce's Common Sense Medical Adviser, a 1008 page medical work, profusely illustrated, will be sent free on receipt of 21 one-cent stamps to cover postage only. Address, World's Dispensary Medical Association, Buffalo, N. Y.

## OWENY A GLOBE-TROTTER.

Postal Clerks' Famous Dog Starts on a Trip Around the World.

Oweny, the postal clerks' famous dog that has traveled over the United States, sailed from San Francisco the other day for a trip around the world. Early in June Oweny came to Tacoma and made a trip to Alaska. Returning, he inspected a China steamer lying at the dock, and seemed interested in it. The other morning Assistant Postmaster Stockings made arrangements for him to go around the world. He will go to Hong-Kong on the Northern Pacific steamer Victoria as the guest of Captain John Pantom. The captain will put him aboard an English mail steamer bound for London, via India and Suez. Oweny will thence be sent to New York and back to Tacoma. Oweny is now 15 years old. He started traveling from Albany, N. Y., many years ago. A postal clerk took a fancy to him and put about his neck a tag bearing the inscription: "Be kind to Oweny." Ever since he has traveled with the postal clerks. He is now fat and lazy, and will probably die eventually of overfeeding, as the clerks vie with each other in taking good care of him.

THERE was a very light frost Thursday morning, but not enough to damage vegetation.

**Girl Drummer on a Bicycle.**

"The sweet girl who sells the sour stuff," is the way western grocers describe Miss Ella M. Henley, the pioneer woman drummer on a wheel, who travels for a St. Louis vinegar firm. Miss Henley

MISS HENLEY ON HER WHEEL.

has been on the road as a commercial traveler for about two years. When she began the work, women drummers were so rare that she was a decided novelty and took a great many orders. Other women entered the field, however, and when she found that interest in her appearance was beginning to flag she turned to the bicycle and the bloomers for adventitious aid.

**Chauncey M. Depew, Jr.**

In personal appearance Chauncey M. Depew, Jr., resembles Chauncey M. Depew, Sr., as much as it is possible for a youth of 17 to resemble a man of 57. Young Chauncey used to be known as Buster, a name which his father play-

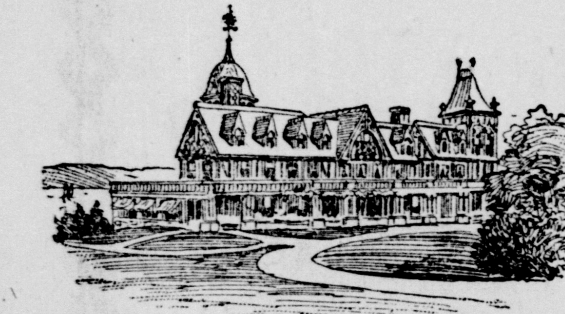

CHAUNCEY M. DEPEW, JR.

fully gave him in childhood, but which he has now outgrown. Every summer since his fifth year he has taken a trip to Europe with the family and speaks and writes French and German with considerable fluency. Young Chauncey is now pursuing the usual course at a classical school in New York, and two years hence will enter Yale college, from which institution his father was graduated.

**A Millionaires' Country Club.**

Famous Tuxedo Park, the country home of many well to do New Yorkers, is to have a rival on the Hudson river. The millionaires of Dobbs Ferry and vicinity have formed a very exclusive country residence club and have pur-

chased one of the most beautiful sites on the historic Hudson for the enterprise. About 450 acres of land at Dobbs Ferry have been acquired, and at least \$1,000,000 will be expended before the grounds and the casino are ready for occupancy. The entire plot will be transformed into a park of wonderful beauty, and upon chosen sites in this exclusive spot the club's members will erect palatial country homes.

**Memorial to Tennyson.**

The lines from Lord Tennyson's "In Memoriam," "Thou bringest the sailor to his wife and traveled men from foreign lands," will be fittingly exemplified in the beacon monument to be erected to the memory of the poet laureate at Highdown, on the Isle of Wight. The monument will serve as a beacon light and landmark for vessels entering the Solent from the west. The monument will consist of a tall Ionic cross 32 feet in height, with pedestal designed by Mr. Pearson, R. A. The shaft will bear this inscription: "To the memory of Alfred Lord Tennyson, a beacon to sailors, is raised by the people of Freshwater and others who desired to honor him in England and America."

**DO HORSES WEEP?**

A Well-Authenticated Case Proves That They Do.

Do horses weep? is a question discussed by the Admiralty and Horse Guards Gazette. It tells us that there is a well authenticated case of a horse's weeping during the Crimean war. On the advance to the heights of Alma, a battery of artillery became exposed to the fire of a concealed Russian battery, and in the course of a few minutes it was nearly destroyed, men and horses killed and wounded, guns dismounted and limbers broken. A solitary horse, which had apparently escaped unhurt, was observed standing with fixed gaze upon an object close beside him; this turned out to be his late master, quite dead. The poor animal, when a trooper was dispatched to recover him, was found with copious tears flowing from his eyes; and it was only by main force that he could be dragged away from the spot, and his unearthly cries to get back to his master were heartrending. Apropos of the intense love that cavalry horses have for music, a correspondent of the Gazette writes that when the Sixth Dragoons recently changed their quarters a mare belonging to one of the troopers was taken so ill as to be unable to proceed on the journey the following morning. Two days later another detachment of the same regiment, accompanied by the band, arrived. The sick mare was in a loose box, but hearing the martial strains, kicked a hole through the side of her box, and making her way through the shop of a tradesman, took her place in the troop before she was secured and brought back to the stable. But the excitement had proved too great, and the subsequent exhaustion proved fatal.

**A Fair Investment.**

"Here," complained the aggrieved father, "I have spent nearly \$15,000 on that girl's education, and now she goes and marries a \$2,500-a-year clerk."

"Well," said the friend of the family, "isn't that all of 15 per cent on your investment? What more do you want?"

**A Cruel Remark.**

Sam Johnsing—Don't you fool wid me! Don't make me mad. Don't stir me up, niggah. You oughter know dat when I onct begins I'se a wild beast.

Mrs. Johnsing—Huh! ef dat's so you nebber stops.

# THE FLY, YOUNG, MAN!

Isn't necessarily a tailored to order young man---He may be a young man who has got onto himself after many trials of tailored to order suits--but he is usually a reformed young man. He knows it is not necessary to pay high prices for fine wearing apparel---because he's become acquainted with our Pickwick tailoring system---He's not ashamed that our label is under his coat collar--He's got over that, for there are many things about the making of a suit that our tailors excel others in--although there's one thing they can beat us at. They can sometimes get twice and three times as much as we do for the identical cloth. We commence at \$8.50 and have some up to \$30.

## OUR PICKWICK SUITS AND OVERCOATS !

have got the build of the best tailor-made garments. The average ready-made and the cheap made to order coat is rarely satisfactory. The seams rip, the buttons come off, the wadding settles in chunks between the lining and the outside and the shape IT WILL NOT KEEP. It is folly to buy the truck advertised, when with our tailoring system you can avoid all these discomforts. If you could buy high grade **clothing made to fit your form** and at a price no higher than is usually asked for the common ready made stuff, WOULD YOU? If you would we can show you in our Pickwick department, Suits and Overcoats from \$10 to \$25, that will be a credit for you to wear. The lining will be right, the button holes right and the most important part, the shape and making right. We have some especially fine overcoats and ulsters which are displayed in our show window. Stop and examine them. Any overcoat or ulster bought during balance of this month we will lay aside for you and make you a reduction of 10 per cent from price. Why not pick out what you want now.

Our Flannel Night Robes, cut 56 and 60 inches long, \$1.00.
